Ese Gbenmo

SUMMARY

A Frontend developer proficient in React, TypeScript, JavaScript, Node.js, and Tailwind CSS. I specialize in building responsive, accessible, and visually polished web interfaces, turning complex designs into smooth, user-friendly experiences across all devices.

SKILLS

Technologies: React | TypeScript | JavaScript | Node Js | Flask | Tailwind CSS | jQuery |

Skills: API Integration | Responsive Design | Version Control | UI/UX Development | Adaptability to new technologies.

PROFESSIONAL EXPERIENCE

Frontend Engineer - Salariopay   **May 2024 – Present**

- Currently working at Salariopay, building and maintaining user-facing features for the company's payroll and HR tools.

- Led the development of the Integration Marketplace, enabling users to explore and connect with third-party HR and finance tools.

- Collaborated closely with designers and backend engineers to deliver pixel-perfect, high-performance interfaces.

- Ensured seamless API integration, accessibility, and responsive design across devices.

Technologies: React, Redux, TypeScript, JavaScript, Tailwind CSS, jQuery

Software Developer - Metro Health HMO   **Jan 2022 - April 2024**

- Built a core in-house software to streamline operations and improve business workflow

- Developed an HR onboarding system to digitize and simplify employee intake

- Collaborated with cross-functional teams to deliver scalable, user-friendly solutions

Technologies: JavaScript | TypeScript | React | Nodejs | Nextjs

Frontend Engineer - MCB (Mauritius Commercial Bank)   **Oct 2021 - Dec 2021**

- Migrated the MCB website from HTML, CSS, and JavaScript to React, enhancing maintainability and performance.

- Developed user-friendly, responsive components to improve customer experience.

- Independently implemented front-end features to ensure a seamless user experience.

Technologies: React | Typescript | JavaScript | HTML | CSS.

OTHER NOTABLE PROJECTS

Tamsey Finance Inc: (*Bank Landing Page Experience)*

A sleek, 30-page React site guiding users through the Bank's business banking, loans, savings, investments, and digital payments with clear CTAs and seamless, responsive navigation.
Tech Stack: React · JavaScript · HTML5 · CSS3 · Flask
Status: Completed

Live Demo: https://brookfield-project.vercel.app/

Leewo Jones: (*A storefront for photographers to sell their work)*

A coming-soon e-commerce platform where photographers can upload, price, and sell high-resolution images directly to customers via secure checkout and licensing options.

Tech Stack: React · JavaScript · HTML5 · CSS3 · Golang
Status: MVP phase — core gallery, cart, and licensing flows are live; next up: user profiles, payment integration, and admin dashboard.

Live Demo: https://leewo-jones.vercel.app/

EDUCATION

Miva University: Bsc Computer science   -   2024 - Present

British Computer Society: Certificate in IT (BCS Level) -   October 2024

Yaba College of Technology: OND in Science Laboratory Technology (Distinction) -   June 2023
